Hannah Vang

Registered Dental Hygienist, RDH · General and Periodontal Maintenance

Minneapolis, MN · (612) 555-0184 · hannah.vang@email.com · linkedin.com/in/hannahvangrdh

SUMMARY

Licensed dental hygienist with 7 years in multi-provider group practice, certified in local anesthesia and nitrous oxide. Sees 8 to 9 patients a day from age 3 to 90, with a heavy periodontal maintenance and SRP schedule.

EXPERIENCE

Dental Hygienist · Park Dental — Apr 2021 – Present

Minneapolis, MN

- Saw 8 to 9 patients a day on a 60-minute schedule in a 3-dentist, 4-hygienist office.
- Recorded 6-point periodontal charting on every adult new patient and recare, flagging bleeding and 5 mm+ pockets for the dentist's diagnosis.
- Completed about 12 quadrant-based scaling and root planing cases a month, giving infiltration and inferior alveolar blocks.
- Showed patients intraoral camera photos at chairside; accepted SRP treatment plans in my column rose from 48% to 63% in 2024.
- Took FMX, bitewings and panoramic images on digital sensors, retaking under 2% of images in the 2025 office audit.
- Administered nitrous oxide for anxious adults and children under the dentist's general supervision.

Dental Hygienist · HealthPartners Dental Group — Jul 2019 – Mar 2021

Bloomington, MN

- Floated across 3 clinics, treating 7 to 8 patients a day and adapting to each office's charting and sterilization routine.
- Placed sealants and fluoride varnish for pediatric recall patients, averaging 40 sealants a month.
